Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

1. The Office action is responsive the Applicants' Remarks filed 03-17-04. Claims 63-97 are pending in the application.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 63-97 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In the independent claims 63, 82, 85, 87, 89, 91 and 96, the specification lacks support for the subject matter "a memory array comprising a plurality of groups of data cells and address cells, said cells in each of said groups of data cells and address cells respectively storing data and addresses." The specification on pages 16 and 17 only depicts "a typical sector 401 organized into a data portion 403 and a spare (or shadow) portion 405" and "the spare portion 405 is further organized into an alternative defects data area 407, a defect map area 409, a header area 411 and an ECC and others area 413." Therefore the specification fails to describe groups of address cells for storing address in a memory array.

Response to Arguments

4. Applicant's arguments filed 03-17-04 have been fully considered but they are not persuasive.

In the Remarks, the Applicants argued that the present application describes the second portion 405 (in figure 5) including area 409 whose cells store addresses. This is not correct. The specification on page 17, lines 6-8, only describes the addresses of the defective cell and the backup cell stored as defect pointers. The specification does not mention about address cells and storing addresses as claimed. Therefore claims 63-97 are rejected for lacking support from the specification as originally filed.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Son L. Mai whose telephone number is 571-272-1786. The examiner can normally be reached on 8am to 6pm.
